**G**et the look you've always wanted with the latest health and beauty treatment, EmSculpt Neo. Designed for fat elimination and superior muscle conditioning, this unique, non-invasive technology combines synchronized RF (radio frequency) and HIFEM (High Intensity Focused Electromagnetic) to give you incredible results in a short amount of time. In only four, 30-minute sessions – roughly equivalent to 12-16 weeks of HIIT training – you can melt fat while toning muscle to reveal a new, healthier-looking you. There are no needles and no downtime, which means you can easily walk in, walk out and go on with your day after receiving the treatment. And the best part is, you will feel an immediate change and even see visible change in just weeks.
